1.0 PROFILE

Co-founder and operator who turns business problems into working software — using Claude Code as my engineering team. At Supertest, I diagnose the bottleneck in the sales or ops process and build the agent, skill, or workflow that removes it. That instinct comes from 7+ years leading People & Talent across LATAM and the U.S. — including co-founding a staff augmentation agency that recruited and managed 100+ software professionals for VC-backed companies — now applied to building AI-native GTM infrastructure myself, end to end.

2.0 COMPANIES FOUNDED

Supertest [supertest.co](#) Jan 2026 — Present

ACTIVE — SCALING

Partner

AI-personalized EdTech platform preparing Colombian students for the Saber 11 and Saber Pro standardized tests, sold B2B to schools and universities. Barranquilla, Colombia.

- Designed and built, personally, with **Claude Code**, a 9-project GTM automation portfolio that runs the company's sales motion: an internal Slack sales orchestrator, an AI WhatsApp SDR/support agent, a cold-outreach engine, a pre-meeting research agent, a call-reviewer that writes CRM notes and tasks, a proposal generator, and a newsletter agent.
- Acts as the company's own GTM engineer — integrating the Anthropic API, Attio CRM, Slack, GitHub, Fireflies, Linear, and Make.com into one operating system for a founder-led sales motion, running 24/7 on a self-managed VPS.
- Owns product vision, B2B sales (rectors, vicerrectores, deans), and go-to-market strategy for the Costa Caribe region.

Avvy Talent [avvy.co](#) Jan 2022 — Jun 2026

EXITED — ACQUIRED JUN 2026

Co-Founder / Head of People & Talent Acquisition

LATAM-focused staff augmentation and recruiting agency serving U.S. and European tech companies.

- Led the company to a successful exit, **acquired by another recruiting agency in June 2026** after 4+ years scaling the business.
- Recruited and managed **100+ software engineers, data professionals, and technical roles** across LATAM; led end-to-end talent acquisition, people operations, and organizational design for fully remote teams.
- Introduced automation and AI-driven workflows to streamline recruiting, candidate screening, and internal processes.

MondayLoop Jan 2025 — Aug 2025

REALLOCATED TO SUPertest

Co-Founder, GTM

Consumer app devshop shipping mobile apps for the U.S. App Store market.

- Shipped and grew a 4-app consumer portfolio — **MacroMax** (AI calorie tracker), **DogDogScan** (AI dog breed ID + skin scanner), an image-to-anime line, and an AI image generator — to **1,000+ downloads** and **~\$3K MRR** combined.
- Growth ran below the threshold that justified the capital and attention required to keep scaling it — redirected both into Supertest in 2026 as the higher-leverage bet.

EARLY VENTURE

Co-Founder

University car-sharing mobile application. Barranquilla, Colombia.

- Led early operations and business development; built partnerships across 4 universities.
- Reached **500+ shared rides** among **2,000+ registered users**.

3.0 PROJECTS BUILT WITH CLAUDE CODE

A 9-project GTM automation portfolio built solo for Supertest, not from a software background.

01 Sales Orchestrator (Slack Agent)

The command center: lives in #ventas, reads the live pipeline from the CRM, executes commercial tasks on command, and runs the other 8 agents by mention — zero terminal.

Claude Code · Anthropic API · Python · Slack Bolt (Socket Mode) · Attio API · GitHub API · DigitalOcean VPS + pm2

02 WhatsApp SDR & Support Agent ("Claudia")

Qualifies inbound prospects and answers customer support over WhatsApp, with human-like typing delay, persistent conversation history, and Slack alerts routed by urgency.

Claude Code · Anthropic API · EvolutionAPI / Baileys · Docker · Python · VPS Deployment

03 Cold Outreach Sequencer

Turns a CSV of target institutions into a researched, personalized multi-touch email + WhatsApp sequence, with auto stop-on-reply and CRM sync.

Claude Code · Anthropic API · Exa.ai · Gmail SMTP/IMAP · Attio API · Python

04 Pre-Meeting Research Agent

Given an institution's name, generates a PDF brief with results, comparatives, and decision-makers — delivered to Slack in ~2 minutes, before every call.

Claude Code · Anthropic API · Exa.ai · Python

05 Call Reviewer

Pulls the latest sales call transcript, opens follow-up tasks in Linear, and writes a CRM note with a suggested deal stage — confirmed by a human, never auto-moved.

Claude Code · Anthropic API (Sonnet) · Fireflies.ai GraphQL · Linear API · Attio API

06 Internal Wiki with Natural-Language Editing

A 22-page company wiki the Slack agent can update and redeploy on command. [View live →](#)

Claude Code · MkDocs Material · GitHub API · Vercel · Anthropic API

07 This Website

The CV site this résumé is adapted from — built end to end with Claude Code. [View repo →](#)

Claude Code · HTML / CSS · Python (image processing)
